EXPERIENCE

Boot Camp Full Stack Web Developer

Le Wagon

📅 12/2023 - 02/2024 📍 Online

- Covered fundamentals of Full Stack Web Development with Ruby on Rails.
- Learned to work with MVC patterns, resulting in enhanced code structure and maintainability by applying architectural best practices.
- Developed Quick Quizz, leveraging ChatGPT API, where you can turn your notes into a quiz and learn from it.
- Working with GitHub branching when working as a team.
- Engaged in morning stand-up meetings using Trello for workflow management, ensuring a smooth workflow within the team.

Junior Web Developer

Freelancer

📅 09/2022 - Present 📍 Scotland

- Since 2022, I have worked on developing my technical skills, in web development. I was starting from the paid course where I could learn basic HTML CSS and JS. Starting coding on my own and created a few little projects.
- The first portfolio was done with HTML CSS(Sass) and JS for the dynamic of my git Repos.
- Afterwards, I was eager for more and pushed my portfolio to the final Step I used TailwindCSS and added a new design.
- As a front-end developer, I've learned to reduce website loading times by converting images to efficient formats like WebP and AVIF, resulting in a 30% improvement in loading time and user experience. Additionally, I've optimised website load speeds and resource delivery through minification techniques, reducing file sizes for enhanced performance.
- Working on PHP (Laravel).

Business Owner

Several Jobs

📅 07/2007 - Present 📍 Scotland

- My previous roles have honed my ability to communicate with clients, demonstrating strong problem-solving skills, adaptability, teamwork, and exceptional time management. These experiences have equipped me with the expertise to resolve challenges efficiently and collaborate seamlessly with the team.
- Run a business for 2 years - due to my real goals, I changed path.

Junior Web Developer

Jatex

📅 01/2007 - 06/2007 📍 Poland

- Worked on enhancing the customer experience through an online order form. Updated HTML, CSS, and basic JS. Implemented design improvements and ensured the form's functionality met customer requirements. Achieved a more user-friendly and visually appealing order form, contributing to a smoother ordering process for customers.

SUMMARY

I'm a Junior Developer. I began my journey with front-end development, but I wanted more. So, I dedicated myself to joining an intense Boot Camp. It not only added new skills but also strengthened my existing ones.

SKILLS

Ajax	Bootstrap	CSS	Git
Heroku	HTML	PostgreSQL	
JavaScript	Ruby	Ruby on Rails
